

CURATED COOKIE GIFTS BASED ON PERSONALITY

Novel flavours, alongside reconstruction of classic desserts are explored when we develop our unique cookie recipes. Deriving inspirations from personalities around us, we bring the cookies to life - highlighting each flavour's distinctive traits and attitude, personifying each treat as an individual character.

Focusing on interesting personalities and innovative flavours, Folks & Stories delivers cookies, priced at \$3.80 per piece, that are perfect for celebrations, events and gifting.

How Each Cookie Is Created

Taste remains the priority in development of the cookies. While creative inspiration is drawn from people, in terms of their demeanour, attitude and behaviour, the development of the cookie personality comes after tasting of the baked product. Flavour, texture and fragrance of the cookie are considered in the design of the cookie persona.

Personalization of Cookie

Personal message can be customized on the cookie packaging in order to add a personal touch to the gift. Design of label can also be changed in order to suit desired theme or maintain consistency for events.

On top of that, new flavours can be developed to cater to special nutrition requirements or specific flavour request.

Curate Your Own Cookie Gift Set

Comes in sets of 2 or 4 pieces, gift-givers can put together unique gift sets from a wide range of treats specially for their loved ones.

Great for Gifting Occasion

New flavours are added on a monthly basis, with seasonal flavours launched during festive seasons as well. Well-designed gift bags are added for selection to suit festive themes and concepts.
